At Cuprinol we believe that every garden has the potential to brighten lives. It’s a place where food is shared, games are played and memories are made.

But the great Irish weather can be an almighty force that not only plays with our emotions, but also our garden furniture. Make sure you protect your wood to really get the most out of your garden.

For tips and inspiration on how to bring your garden to life visit us at www.cuprinol.ie
Making your garden a great place to be and enjoy can be easier to achieve with Cuprinol Garden Shades. Our beautiful colours can transform any garden – big or small.

**CUPRINOL GARDEN SHADIES**
- Beautiful matt colour enhances the grain of natural wood
- 6 year weather protection on wood
- Suitable for wood, terracotta, brick and stone
- 50ml, 1 litre, 2.5 litre, 5 litre (not all colours come in all sizes)

**WATER-BASED**

*For more inspiration on ways to brighten up your garden with our Garden Shades range go online to www.cuprinol.ie for ‘How to’ videos & FAQ’s.*

Our expert water repellent formulation ensures up to 6 years weather protection on wood.

Get a coordinated look by using Garden Shades on brick, stone and terracotta as well as on wood.

**HEART WOOD™**

A warm Neutral in the Nature’s Neutral’s collection which draws inspiration from our current obsession with all things wooded but it also contains a hint of lavender to add warmth and promote a feeling of relaxation.

**WHY NOT TRY...**
- making your own outdoor mirror using some trellis painted in Crushed Chilli™. It’s a great focal point for any garden design.

For a step by step guide visit www.cuprinol.ie
**Which colours to use?**

**NATURE’S NEUTRALS**
represent all the colours you would see in the sky, landscape, raw materials and water. They work well together as a foundation and are ideal for the bigger elements in the garden.

**NATURE’S BRIGHTS**
represent colours that are associated with flowers and can add pops of brightness; these are ideal for garden furniture and plant pots.

Don’t be afraid of using neutrals & brights as they work together as well as individually.

---

**Unsure which colours to use?**
Tester pots for the ready mix colour range are available from major DIY retailers and paint stores.
At Cuprinol we have developed our specially formulated shed and fence treatments to not only colour the wood but also protect it against the damaging effects of the weather.

**CUPRINOL LESS MESS FENCE CARE**

IS CUPRINOL REDUCING ITS IMPACT ON THE ENVIRONMENT?

Yes. And we are committed to continuing to do so.

That’s why at Cuprinol we not only provide products that preserve natural materials like wood but we also continuously work hard to reduce the environmental impact of our products. We monitor each production step very carefully from the source of our raw materials and how our products are made to the impact of our packaging. In fact we have used 25% recycled content in some of our Cuprinol cans to reduce their environmental impact!

Let’s create a brighter future for our planet. Join us at www.dulux.ie/pp

We continuously test our formulations to make sure you’re getting our best performing products and highest quality finishes. We are always happy to help should you have any questions.

We have produced product colours as accurately as printing will allow. Unfortunately we cannot guarantee an exact colour match, and the colours contained in this guide should not be relied on as such. The appearance of the actual colour can be affected by the substrate and the finish of the surface, therefore colour swatches are available, please select on the actual surface on which the final result may be seen. These should be treated as a guide to give a stronger indication of the appearance of the actual colour. If a colour better is not available, then buy the product on a trial area representative of the surface before undertaking the full application.

Special precautions should be taken during surface preparation of pre-1960s paint surfaces over wood and metal as they may contain harmful lead. For further advice contact AkzoNobel.

Heart Wood™ (top shed, furniture and planters), Seagrass (fence, furniture inside shed and terracotta planters), Pale Jasmine (shed and top of brick wall), Dusky Gem™ (garden brick wall).
